

Mr. Mohanad Is-Hak and Mr. Abdulla Alansari and with the AVIXA AV Experience Awards 2020 prize

QUSEC WINS AVIXA AV EXPERIENCE AWARDS 2020

The Qatar University Sports and Events Complex's project (QUSEC) was awarded the Best Flexible Space Experience by AVIXA for its AV Experience Awards. Techno Q was officially announced as the winner during the virtual panel discussion at InfoComm 2020. The prestigious international award recognizes the very best in terms of innovative integration of content, space and audio-visual technology to enrich experiences. AVIXA, said "We created the AV Experience Awards to applaud the remarkable ways professionals are designing and applying AV technology to a multitude of diverse environments."

Techno Q made it through a very exigent competition with AV projects being reviewed by AVIXA from more than 20 countries. In the end, the QUSEC project was selected as the best when it comes to AV applications that create spaces that are constantly changing, adaptable, and facilitate the activities that happen within them. The InfoComm 2020 video celebrating the winners is available on [their website](#) until the 21st of August 2020.

NATIONAL MUSEUM OF QATAR - GALLERY 11

The National Museum of Qatar (NMoQ) latest exhibit, Gallery 11, opened to the public end of 2019. Techno Q oversaw the installation of complex multichannel audio, lighting and video displays with filmed themes about Qatar's modern history, projected on the walls, ceilings and floors. It was achieved through a LED screen solution with 1.9mm pixel pitch to match the asymmetrical structure of the NMoQ. To overcome the front accessibility's issue hindered by the large mirror-glass panels, an ingenious rail system was installed to allow backwards movement of panels. This special project was chosen to be featured on the cover of the July- August issue of Pro AVL MEA.
