

The Philips UV-C desk lamp in a living room

## THE PHILIPS UV-C DESK LAMP NOW AVAILABLE IN QATAR

Philips, the World leader in lighting, has launched its UV-C desk lamp in Qatar. It is the result of 35 years of expertise and innovation in UV technology. Philips UV-C lighting range is designed, manufactured and installed in line with the highest safety standards. Thus a research conducted with the National Emerging Infectious Diseases Laboratories at Boston University (USA), approved the effectiveness of Philips UV-C light sources on the inactivation of SARS-CoV-2, the virus causing COVID-19. The conclusive results show that in a matter of seconds, there is reduction of 99% of the virus.

Safety is also at its best thanks to its microwave sensor detecting moving objects, its 30 seconds delay start and its child lock. It comes with a clear control panel and voice guided instructions. The UV-C desk lamp is perfect for small areas and rooms, and disinfects within 15 minutes a washroom, 30 minutes a bedroom and 45 minutes a living room. It is as well environment-friendly leaving no residue during or after usage. With its stylish cubic design, the UV- C desk lamp is now available in Qatar at Lulu hyper markets, Monoprix and Safari stores.
